## NOTES

<sup>†</sup>TRD = treatment resistant depression. \*PMDD = premenstrual dysphoric disorder. \*\*Not a complete list of official indications or formulations.

For a more complete description of indications, see individual product entries and/or contact manufacturer for full labeling.

<sup>1</sup>For adjunctive treatment.

<sup>2</sup>For TRD, use in combination with fluoxetine.

<sup>3</sup>For TRD, use in combination with olanzapine.

Caps = capsules; tabs = tablets; (+) = scored; ext-rel = extended-release; del-rel = delayed release; soln = solution; susp = suspension; inj = injection; conc = concentrate; ODT = orally-disintegrating tabs.
